### 3 School Selection and Ranking

**How the ranked application works: 1)** Assign a number to each school you would like to apply to (#1 being your most preferred school.) **2)** Do not assign the same number to more than one school. **3) If accepted at more than one school, we will only reserve a seat for your child at the higher ranked school.** **4)** If you do not rank your selected schools, they will automatically be ranked by proximity to your child's address (closest to furthest).

Ranking a school higher or lower does not increase or decrease your child's chances of being offered a seat at that school. Your rankings will only be used to offer a seat to your child at your preferred Uncommon school if he or she is offered a seat at more than one school.

Additional Information

Uncommon NYC is proud to serve all students – including those with special needs and English Language Learners. Our special education team ensures that students with special needs have the support, services, and accommodations they need to succeed.

While Uncommon Schools offers Kindergarten through 12th grade, we only accept applications for children entering Kindergarten through 8th grade. We do not accept applications for our Uncommon High Schools.

*A charter school shall not discriminate against or limit the admission of any student on any unlawful basis, including on the basis of ethnicity, national origin, gender, disability, intellectual ability, measures of achievement or aptitude, athletic ability, race, creed, gender, national origin or religion. A school may not require any action by a student or family (such as an admissions test, interview, essay, attendance at an information session, etc.) in order for an applicant to either receive or submit an application for admission to that school. However, our schools provide an academic program specifically designed for low income students and students in our community school districts. These preferences have been approved by the schools' authorizer and are permissible.*
